QUALITY THROUGH EQUALITY

WHO WE ARE

We are a European network established by and for women in the police. We stand for fairness, equality of opportunity, diversity and mutual appreciation.

It is our goal to promote and strengthen women in their skills and competences - be they personal or professional. Our activities are guided by openness, team spirit, tolerance, innovation, empathy and trust.

Our individual experience and knowledge extend to all situations of living existence, levels of hierarchy and disciplines.

It is with the know-how of each single member that we can provide assistance and guidance.

During various activities and encounters, we would like to learn together and learn from each other, to exchange information in a target-oriented manner, to communicate with pleasure.
